Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Saturday 09 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy with rain arriving from the northwest.

Today:
Mostly dry this morning. Early brightness, although cloud increasing from the northwest. South-eastern areas holding onto a few bright spells this afternoon, but thickening cloud will bring rain into Cumbria, and the odd spot reaching other areas later. Remaining mild. Maximum temperature 18 deg C (64 deg F).

Tonight:
Cloudy this evening and for a time overnight with outbreaks of mainly light rain moving southeast across the region. Fog affecting the hills. Clearer weather tucking in later. Minimum temperature 8 deg C (46 deg F).

Sunday:
Sunday promises to be a dry and sunnier day, as fresher weather moves in from the north. Temperatures returning closer to the seasonal average. Maximum temperature 15 deg C (59 deg F).

Outlook for Monday to Wednesday:
After a bright start cloud and patchy rain will return on Monday, lingering into Tuesday. Mainly dry with sunny spells on Wednesday after early fog clears. Cooler than of late.
